ABHISHEK GUPTA

QA Automation Engineer | Web & API Testing

Delhi, India | abhishekg9630@gmail.com | +91-9560934582

PROFESSIONAL SUMMARY

Engineer with approximately two years of experience across quality assurance and web development, including hands-on Playwright test automation. Skilled in functional, regression and smoke testing, test cases, API testing and reproducible defect reporting. Combines JavaScript, Node.js and Jest skills with AI-assisted test generation and debugging using GitHub Copilot, Cursor and ChatGPT, with human review. Focused on application reliability and continuous QA process improvement.

TECHNICAL SKILLS

QA Methodology: Test cases, functional testing, regression testing, smoke testing, defect reporting, manual and automated testing
Web & API Automation: Playwright (hands-on), Jest, API testing, Postman
Programming & Databases: JavaScript, Python, Node.js, MySQL, MongoDB
Engineering Tools: Git, GitHub, Docker, CI/CD pipelines
AI-Assisted QA: GitHub Copilot, Cursor, ChatGPT, Claude Code; test generation, code assistance and debugging with human review

PROFESSIONAL EXPERIENCE

Associate Engineer (QA) / Software Engineer Trainee | Successive Digital
May 2025 - Present

- Performed functional testing of new features to identify defects and validate expected application behavior.
- Reported defects with clear reproduction steps and detailed observations to help developers investigate and resolve issues.
- Shared testing feedback with the team to improve QA practices and product quality.
- During engineering training, developed FitForge with JavaScript, Next.js, Node.js, MongoDB and GraphQL, and built skills in Jest testing.

Freelance Web Developer | Freelance
May 2023 - Mar 2024

- Delivered client web applications using React.js and Node.js, with a focus on usability and reliable delivery.
- Managed projects from development through delivery, coordinating requirements and timelines with clients.

SELECTED PROJECTS

Trial Management System - Agmatix | QA Testing

- Tested core trial-management features and data flows to validate functional behavior.
- Documented reproducible defects and collaborated with the team to improve application quality.
- Performed regression checks after updates to assess stability and usability.

FitForge - Fitness Tracker | Full-Stack Development

- Built a MERN-stack application with workout analytics and progress-photo features using GraphQL.
- Developed JavaScript and Node.js skills alongside Jest testing during engineering training.

EDUCATION

B.Tech. in Computer Science & Engineering
KCC Institute of Technology and Management, Greater Noida
May 2021 - Mar 2025 | CGPA: 7.0

ADDITIONAL INFORMATION

Courses & Certifications: Java Foundational Certification (Udemy); GraphQL Associate Certification
Languages: English, Hindi
